AUGUST 2022

The SEGRO logo is located in the bottom left corner of the image. It consists of the word "SEGRO" in a bold, black, sans-serif font, followed by a red circle that contains a white ring, representing the company's logo.

We are a UK Real Estate Investment Trust (REIT), listed on the London Stock Exchange and Euronext Paris, and a leading owner, asset manager and developer of modern warehouses and industrial properties. Our assets are located in and around major cities and at key transportation hubs in the UK and across Continental Europe.

BIG BOX WAREHOUSES
LOCATED IN NATIONAL/REGIONAL
DISTRIBUTION HUBS

URBAN WAREHOUSES
LOCATED IN OR CLOSE TO MAJOR CITIES

SEGRE INVESTMENT CASE:

Driven by mega-trends of urbanisation and technology
– change is greatest where these two combine

SUPPLY CHAIN EFFICIENCY AND RESILIENCE

- Efficient and reliable distribution networks and supply chains are of increasing importance to customers.
- Requires modern well-located warehousing – close to both consumers and a pool of labour.
- The Covid-19 pandemic and Brexit have also highlighted the importance of resilience within supply chains.

NEED FOR EFFICIENT, SUSTAINABLE BUILDINGS

- Increased focus on the impact of buildings on the environment and the use of finite natural resources.
- Our customers are also looking to minimise their own footprints and reduce overall occupancy costs.
- Buildings need to be sustainable in the long term and use natural resources efficiently.

URBANISATION

- Majority of European cities are growing and require additional housing, as well as goods and services to support these larger populations.
- Industrial land is increasingly being used for residential construction and other uses.
- Land available to meet the need for increased warehouse demand is being eroded.

DIGITALISATION OF OUR SOCIETY (AND RESULTANT CHANGES IN CONSUMER BEHAVIOUR)

- Increased e-commerce penetration across Europe has led to retailers needing to adapt their distribution networks.
- Greater use of data (by both businesses and consumers) has led to increased demand for data centres.

BIG BOX WAREHOUSES

- Typically larger units
- Serving national and international logistics supply chains, mainly bulk storage and distribution
- Higher net income yield
- Low management
- Development mainly pre-let
- Moderate availability
- Expected ERV growth of 2-4% p.a.

PORTFOLIO BY TYPE
(Valuation, SEGRO share)

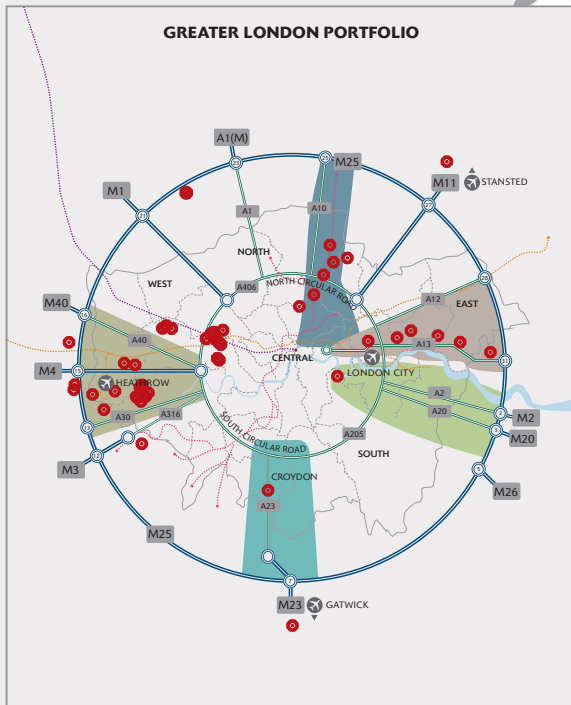

1. Urban warehouse UK	55%
2. Urban warehouse CE	12%
3. Big box warehouse UK	9%
4. Big box warehouse CE	22%
5. Other	2%

URBAN WAREHOUSES

- Typically smaller units
- Generic warehouse space to cater for multiple uses, including urban distribution and data centres
- Lower net income yields
- Greater asset management potential
- Development mainly speculative
- Limited availability
- Expected ERV growth of 3-6% p.a.

OUR REFOCUSSED RESPONSIBLE SEGRO PRIORITIES AND TARGETS

Understanding the needs and priorities of our customers and wider stakeholders has been at the heart of our business for over 100 years.

Our Responsible SEGRO framework focuses on three long-term priorities to which we believe we can make the greatest business, environment and social contribution. For each of these areas we have established challenging initial targets, against which we report annually, and have set out the actions needed to achieve them. We will set additional, more specific, supporting targets as necessary and we expect our actions and approach to evolve over time to reflect our achievements, technological change and the priorities of our stakeholders and wider society.

OUR THREE LONG-TERM PRIORITIES

 <p>CHAMPIONING LOW-CARBON GROWTH</p>	 <p>INVESTING IN OUR LOCAL COMMUNITIES AND ENVIRONMENTS</p>	 <p>NURTURING TALENT</p>
<p>We will be net-zero carbon by 2030</p>  	<p>We will create and implement Community Investment Plans for every key market in our portfolio by 2025</p>  	<p>We will increase the overall diversity of our own workforce throughout the organisation</p>
