

SEGRO PARK

BERLIN AIRPORT

MELITTA-SCHILLER-STRASSE 12-22, 12526 BERLIN

PHASE 5B

MODERN AND FLEXIBLE LIGHT INDUSTRIAL UNITS DIRECTLY AT BERLIN-BRANDENBURG AIRPORT

SEGRO PARK BERLIN AIRPORT IS BEING EXPANDED BY A TOTAL OF ALMOST 18,500 SQUARE METRES DUE TO THE HIGH DEMAND FOR MODERN LIGHT INDUSTRIAL SPACE.

The new phase 5B is being built according to modern standards for sustainable, ecological and energy-conscious construction. Wooden beams are used in the warehouses, all areas are equipped with modern LED lighting and we place great value overall on plenty of natural daylight. A healthy ecosystem is also important to us. The park will house beehives as well as insect hotels and nesting holes for native birds. And of course the new areas meet the DGNB Gold Standard.

The entire site consists of a logistics section with large-scale logistics units of approximately 72,500 square metres of lettable space and a light industrial section with flexible, small and medium-sized warehouse and office units, which will have more than 85,000 square metres of lettable space after completion of the fifth construction phase. Further construction phases are already in the planning stage.

SEGRO Park Berlin Airport is located in the immediate vicinity of the new capital city airport Berlin-Brandenburg. The park is located directly on the B 96a and offers optimal access to the motorway network via the A 113 and A 117.

Completion of the new space is scheduled for April 2023. The rental units from 1,500 square metres can be rented individually or together and also enable existing tenants to grow flexibly at the location.

PHASE 5
EXPANSION AREA LIGHT INDUSTRIAL

LIGHT INDUSTRIAL
SEGRO PARK BERLIN AIRPORT 

SUSTAINABLE EXPANSION

Photovoltaic system
Produces „green“ electricity that is passed on to the tenants

Lighting
Modern LED lighting, plenty of daylight through roof domes and a high proportion of windows

Green infrastructure
Charging stations for electric vehicles for each unit

Rainwater storage
for irrigation of the park

Sustainable greening concept
including partial facade greening

Green roofs

NEW PHASE 5B

TOTAL OF
1,900 sqm

SPECIFICATIONS

Warehouse height: 10.00 m clear height

Floor load: 5 t/sqm
(forklift trucks with maximum 3.1 t/ m² total load)

Each unit has 4 gates:

- 1 sectional door (3 m W x 4.2 m H) for ground level access
- 3 loading ramps with loading gates (3 m x 3 m) and electric hydraulic dock leveller

Windows in the warehouse area

LED lighting in all areas

Light domes for best lighting conditions and ventilation

Energy-saving construction, DGNB Gold certified

Separate supply of district heating, water and electricity to each unit to optimise ancillary costs

Power supply for each unit 63 A;
can be extended if required

Office extension according to tenant's wishes
